(Read Carefully)

The season just past has been a banner one with us. Never have we had such wonderful growing weather and such a quantity of exhibition blooms. Our own seedlings have been a great pleasure to us and our visitors. We have waited patiently for the season of 1940 to offer the world a few really GOOD new dahlias, with stock sufficient that a high price will not be necessary. We feel sure all who secure these new numbers will be more than pleased when they come in bloom.

All our stock is carefully selected, well grown, well matured, and packed in such manner as to reach you safely in perfect growing condition.

GUARANTEE—We guarantee all our stock to be in the best of health, true to name and properly marked, all ready to grow and bloom for you. No sale is complete until you are perfectly satisfied, and should mistakes occur we are only too glad to rectify them. We are only human, and human beings do make mistakes.

TERMS—Cash with order, or deposit, balance at shipping time. We pay transportation on all orders of \$2.00 or over. No order shipped C.O.D. unless 50% of purchase price accompanies the order. Stamps accepted up to \$3.00. Express or P. O. Money Order is always safe. Coins are not.

EARLY SHIPMENTS—Should you desire your order during severe weather we will pack it as nearly frost proof as possible and ship by insured express. After it has left our place we cannot be held responsible for damage in transit. If any damage occurs put in your claim at once to the express company or send us their report for adjustment and your shipment will be replaced.

FOREIGN CUSTOMERS—Please remit by International Money Order, and make the amount equal to the value in American dollars. Canadian customers will obtain permit from the Department of Agriculture at Ottawa and file same with the collector of customs before shipment can be cleared. Send us your permit number. Seeds require no permit.

OUR INTRODUCTIONS FOR 1940

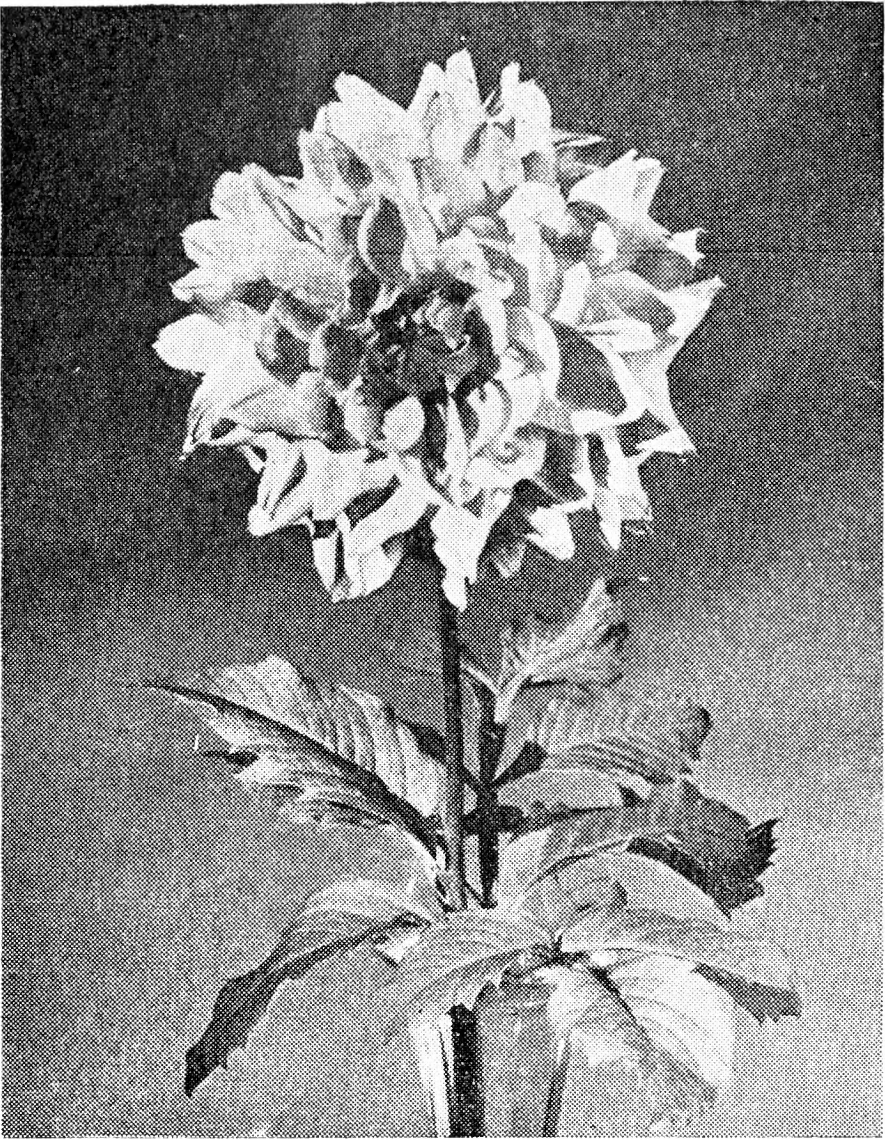

TOWN TOPIC (Hulin-Parrella)—This is really something sensational in a new dahlia. It is a direct cross of **WHITE ABUNDANCE** on **WENOKA** and has the good qualities of both. The free production of large blooms on stiff stems is a wonderful feature not found in many dahlias of this size. The bush is very sturdy, plenty of upright laterals which carry the blooms well above the foliage with an average of 12 inches from the first set of leaves. According to the chart the general color is magenta purple shading to petunia purple. About $\frac{1}{3}$ of the blooms come perfectly tipped white which is a glorious sight above the light green leaves. If all blooms came tipped the price would be much more and worth it. The average size of flowers are ten inches as grown normally, with feed it will grow much larger. The formation is a compact Formal with very tight centers. For the past two seasons it has been "the talk of the town," thus acquiring its name.

Originated in our own gardens and grown, with success, in five locations. Mentioned twice on the Flower Grower Honor Roll. You will be proud to possess this beauty. The price is **ONLY**—Strong Roots each **\$7.50**, three for **\$21.00 net**; Plants **\$3.50 net**

CONVENTION CITY (Lee-Hulin)—Another Honor Roll variety that is quite different in formation from most Informals. The blooms are very full with many large petals with smaller tubular ones at the center. It is nearly as deep as wide, held very strongly on good long stems. The color is very pleasing, being a blend of red shades veined lightly with yellow, giving it the appearance of Hammered Copper. It is a fine keeper, never shattering. Reports say it is one of the best. The thick foliage is insect resistant. Good roots each **\$6.00**, 3 for **\$16.00 net**; Plants **\$2.50 net**.

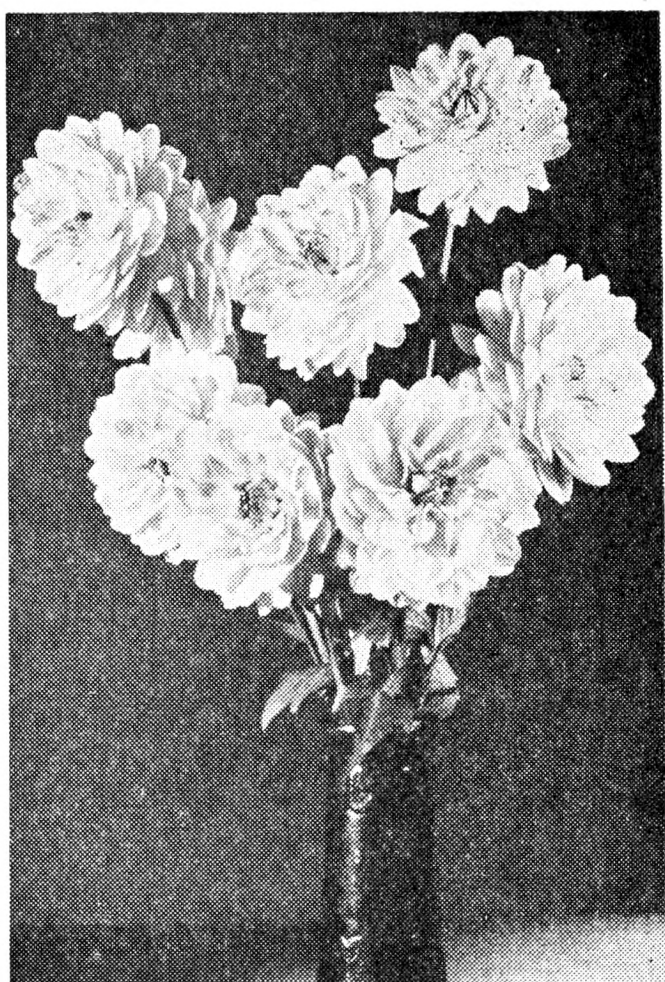

DORIS ARLEEN (Hulin)—Here is a pink that is true in every petal. Deep full blooms of Informal type averaging 8 to 9 inches on perfectly stiff stems. The first blooms are lovely, and they get better as the season advances. Bush is rather tall, well branched, yet not straggly. Pinching back gives you wonderful results. DORIS has several blue ribbons to her credit and reports from many sections where it has been on trial acclaim it a wonderful flower and worth much more than we are asking for it. You will be adding a real gem to your collection with this irresistble pink. It is a fine keeper. Strong roots each \$5.00, three for \$14.00; Plants \$2.00 net.

PRIDE OF BURBANKIA (Imported)—This surely is a new break in the dahlia game. Very uncommonly shaped, being of the peony type with petals very narrow and somewhat piped turning up at the points. In shape it resembles a large Gaillardia. The bush is ideal and the large white flowers are on stiff and long stems. A few plants only at.....\$3.50

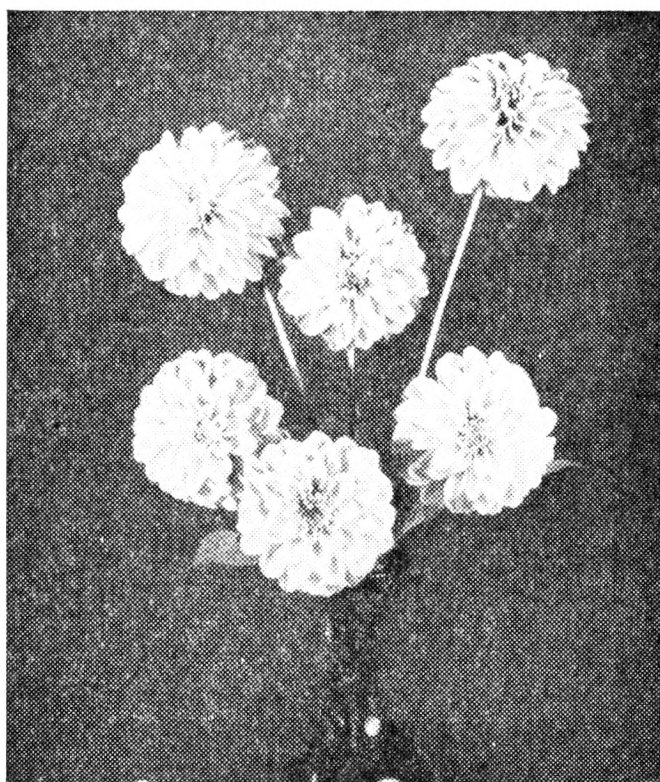

SCARLET ANNE (Stock-Parrella-Hulin)—In the Commercial Seedling class at New York this charming variety won the blue ribbon. The color is a bright scarlet red throughout. The keeping quality is excellent and we predict it will be a favorite with the Cut Flower trade as the blooms are from 6 to 7 inches on long stiff stems. A good stock of this permits the price of **Only \$5.00**; Plants \$2.00.

When you grow "Town Topic" disbud to the second lateral only. You will get wonderful blooms.

Freda George still is one of the most beautiful dahlias in our planting.

MINTO (Hulin)—A darling Pink Miniature from "Gold Rose" that is of the Water Lily type with all petals turning in. The size is three inches on good long stiff stems. Compact and upright, blooming profusely and keeping well when cut. All lovers of the small ones fall heavy for MINTO. Strong roots each \$2.00, three for \$5.00 net.

TOOTS (Lee-Hulin)—Another little classic of real quality. The small blooms are perfectly formal and about 2½ inches on long stiff stems. The color is bright lavender, perfectly adapted to basket work and table decoration. This is a real bargain at only \$1.00 net.

Our dahlias are world known and world grown. We ship to all countries.

RED BONNET (Lee-Hulin)—One of the brightest little Miniatures we have ever grown. A small Formal of bright cherry red that is a mass of bloom all season. Medium low bushes well branched. Reports from Ohio and New York pronounce it the best of all reds. If you are partial to red this should please you well. Roots each \$1.50, three for \$3.50 net.

New Novelties and Recent Introductions

PINK AMELIA (Edison), S.C.—An Honor Roll Novelty that bids fair to be a big winner in the pink class. Claimed to be one of the best of the Semi-Cactus to date. Large blooms up to 11 inches have been grown with ordinary field culture. Mentioned on the Dec. Honor Roll and winner of the bronze medal at Chicago. Plants only\$4.00

A. G. GOODACRE (Goodacre-Dixie), F.D.—Lemon yellow tipped white, which is a color combination not yet seen in a large exhibition flower. Flowers average 9 inches on long stiff stems well out of the tall bush. Abundant bloomer and insect resistant foliage. Winner of Certificate with score of 85.5, also mentioned on the Honor Roll in the Dec. Flower Grower. Plants only\$3.00

KOONGARRA DELIGHT (Australia), S.C.—Large deep gold of perfect form, size and depth. Narrow incurved petals with every bloom reliable. Medium tall plants with large flowers freely produced. A real addition to the Cactus class. Plants only.....\$3.50

VIANA'S FANCY (Australia), I.D.—Large exhibition type of a wonderful color combination, yellow with red veins down each petal. Tall bush with plenty of large flowers on perfectly stiff stems. One that will attract plenty of attention. Plants only.....\$3.50

Don't be afraid to disbud vigorously if you desire large exhibition blooms.

- AILSA FANTOM** (Hoyle-Hulin), I.D.—Large exhibition pink on long stiff stems. The long ribbon-like petals are of fine texture, keeping well when cut. The blooms are full and deep growing up to ten inches with garden culture. Plants only.....\$5.00
- MAHIA** (Hoyle-Hulin), I.D.—An extra large clear light red with many ribbons to its credit. Won as largest flower with a 13-inch bloom, also two firsts in the seedling class. Bush is about 4 ft. tall, and the stems are perfect. Nothing coarse about the bloom which has a perfectly full center at all times.
Plants only\$5.00
- RITA BETTY** (Australia), F.D.—A very large dahlia of a pleasing shade of cinnamon and henna. In its home town this variety has been a champion winner many times. The stems are long and stiff, holding the blooms at a nice angle. Plants only.....\$3.00
- MOTHERS' DAY** (Australia), I.D.—One of the largest whites it has been our pleasure to grow. We exhibited a bloom 13 inches across and 7 deep, carried on a stem over 2 ft. long. It has won many prizes, both in America and Overseas. Tall bush with bright green foliage bearing large pure white blooms is a lovely sight. Mentioned in several show reports the past season. Plants only.....\$3.00
- HENLEY'S GIANT**, I.D.—A huge exhibition novelty of bright scarlet with a lighter reverse. Tall bush and bright foliage which the insects do not like. A grand novelty that will attract plenty of attention. We have grown this two seasons, and all who see it like it. Roots each \$2.50; Plants.....\$1.50
- VIN-WELL EMPRESS**, S.C. (Blamer)—Lovely pure old rose of 9 to 10 inches, held just right on long stiff stems. The bush is medium tall, and nicely branching. This variety proved its worth the past season at many shows. Roots each \$7.50; Plants.....\$2.50
- VIN-WELL BRIDESMAID**, S.C. (Blamer)—Another nice semi-cactus by the same author as above, and also being an old rose color, but with a tint of yellow. Received an award of merit at the Georgia Trial Gardens, and very well spoken of wherever shown. Roots \$5.00; Plants\$2.00
- FREIDA GEORGE**, I.D.—The dahlia beautiful. One of the most attractive varieties grown today. Winner of many prizes all over the country. The color is helio and cream. Very large on good stems\$2.50
- POINSETTIA**, I.D. (Holland)—A bright scarlet with large flat petals that spread out to give great width, with a depth of good proportion. The stems are perfectly stiff, and the blooms are good keepers. All who saw it the past season admired it. Roots only....\$1.50
- NAGEL'S GIANT**, I.D. (Belgium)—A huge flower of old gold and copper, held proudly on a long stiff stem. Compact bush and insect resistant foliage. Great exhibition novelty. Plants only.....\$1.50

When showing your dahlias, if not sure about the classes, ask the Show Manager; he will be glad to assist you.

RITA BALLIN, I.D.—An Honor Roll novelty we had the pleasure of growing the past two seasons. It was really a sensation how the huge blooms stood up on long stiff stems above the light green foliage. The color is lemon yellow throughout, and does not fade or shatter, holding a tight center at all times. Roots \$5.00; Plants\$2.00

DR. MARSHALL A. HOWE, F.D. (Parrella)—Large dark Tyrian Rose of compact formation. Bush is medium tall, and the large blooms are on good stems well up. Received an award of merit at Trial Gardens, and has several blue ribbons to its credit. Roots \$5.00; Plants\$2.00

MARGIE PARRELLA, F.D. (Maxwell-Parrella)—This pure white is fast taking first rank with the cut-flower trade. The blooms are held perfectly on long stiff stems. The average size is 7 to 8 inches, with good depth over a bush of about 5 ft. Blue ribbon winner at New York and on last season's Honor Roll. Roots \$5.00; Plants\$2.00

HULIN'S CHERUB, F.D. (Hulin-Parrella)—This was an introduction of last season in the Miniature class, and proved all we claimed for it. Received two blue ribbons at Virginia show, also at other places. The blooms are a clear pink of three inches on good stiff stems. Medium tall bushes and covered all season with bloom. Roots only.....\$1.00

RITA MARIE, F.D. (Menegel-Hulin)—Another extra good Miniature of last season with good reports on its performance in the East. Rather tall, bush bearing large quantities of glistening bronze flowers. A fine keeper and good root producer. Roots only....\$1.00

When visiting dahlia gardens take particular notice of the bush growth of the dahlias you like.

By pinching out your dahlias when about ten inches high will give you a more compact bush and more blooms.

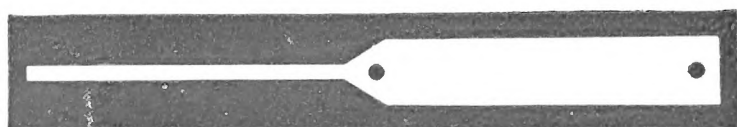

MODERN DAHLIAS

By J. LOUIS ROBERTS

This book describes in detail all phases such as: Soil, time of planting, staking, division of roots, fertilizers, watering, diseases, pruning, propagating, exhibition, judging and storage. Varying conditions of soil, climate and methods of growing have been considered so as to be adaptable to the problems of Dahlia growers in all parts of the country.
